**Senior Full-Stack Engineer & Head of IT | TypeScript · NestJS · React/Next.js · PostgreSQL | Secure Systems, Digital Forensics & DevOps**

**********

## SUMMARY

Senior full-stack engineer with 9+ years building secure, production web systems and 19 years in IT overall. Specialized in TypeScript end to end (NestJS, React/Next.js, PostgreSQL), with hands-on ownership of RBAC and authentication, CI/CD, and Linux server operations.

Currently head the IT department of a regional security directorate, leading software, infrastructure, and digital crimes investigation teams. Experienced in delivering systems under strict security and data-protection requirements.

**********

## SKILLS

**Languages:** JavaScript, TypeScript, SQL, Python | C++, C# (Basic)

**Frontend:** React, Next.js (App Router), Redux Toolkit, Tailwind CSS, i18next | Angular (Basic)

**Backend:** Node.js, NestJS, Express.js, Passport.js, PostgreSQL, MongoDB, Prisma, TypeORM

**Auth & Security:** JWT, OAuth2, HTTPS, Web Security Practices

**DevOps:** Linux, Bash scripting, Docker, NGINX, PM2, CI/CD, GitHub Actions, VPS Hosting

**Digital Forensics:** cybercrime investigation, CCTV/DVR evidence, chain of custody, reporting

**Leadership & process:** team leadership, Agile/Scrum, Git workflows

**Spoken:** Arabic (Native), English (Fluent)

**********

## WORK EXPERIENCE

### Head of Information Technology Department Sharqia Security Directorate,

**Ministry of Interior – Zagazig, Egypt | Aug 2026 – Present**

- Head a 23-staff IT department spanning hardware, software, and digital crimes teams.
- Lead a 4-officer team investigating online fraud, extortion, and account compromise.
- Extract CCTV/DVR digital evidence with preserved chain of custody for criminal proceedings.
- Lead the software team building databases and applications for police operations.
- Direct IT infrastructure procurement, deployment, and support across 22 sites / 44 users.

### Senior Full-Stack Software Engineer

**Ministry of Interior – Cairo, Egypt | Aug 2017 – Aug 2026**

- Led development of the MOI citizen portal (moi.gov.eg), delivering secure public e-services.
- Led development of secure government systems used across multiple departments.
- Built modern responsive UIs using React, Next.js, and Tailwind CSS with strong UX focus.
- Implemented i18n, SEO, and performance optimizations for public and internal web portals.

- Developed backend services and REST APIs using NestJS, PostgreSQL, TypeORM, and JWT.
- Designed RBAC authorization layers aligned with internal compliance and security standards.
- Managed CI/CD pipelines and deployments using GitHub Actions, Docker, NGINX, and PM2.

## Technical Support & Systems Administrator

**Ministry of Interior – Cairo, Egypt | Aug 2007 – Jun 2017**

- Maintained secure IT infrastructure, OS deployments, hardware configuration, and networks.
- Built relational databases for case tracking and administrative systems using SQL principles.
- Provided technical support and troubleshooting under high-security operational protocols.
- Automated internal tasks using scripts, improving data accuracy and reducing manual effort.

**********

**INDEPENDENT PROJECTS**

## Prokit – Multi-Branch Inventory, Purchasing & Sales Management System

***Stack:*** *React, Redux Toolkit, i18next, NestJS, PostgreSQL, Passport.js, JWT, PM2, NGINX, Ubuntu*

- Designed a multi-branch stock ledger with weighted-average costing and a full audit trail.
- Implemented RBAC with rotating refresh tokens, CSRF protection, and per-branch access.

## Bahaahelmy.com – Bilingual Law Firm Website & Content Management System

***Stack:*** *Next.js (App Router), React, Prisma, PostgreSQL, NextAuth, PM2, NGINX, Ubuntu*

- Built an SSR Arabic/English site with SEO and a secure admin panel; migrated legacy WordPress content to PostgreSQL; CI/CD via GitHub Actions.

## Internal Secure Version Control System & DevOps Automation

***Stack:*** *Git (Self-Hosted), Gitea, Ubuntu Linux, Bash, Cron, NGINX, CI/CD, Agile Boards*

- Deployed secure self-hosted Git server (Gitea), replacing flash-drive based code sharing.
- Implemented RBAC using organizations/teams with strict repository-level access control.
- Automated daily backups with Bash + cron and validated disaster recovery on test servers.

## Amen24.org – Multilingual Bible & Christian Digital Library

***Stack:*** *React, React Native, Redux Toolkit, Nextjs, NestJS, PostgreSQL, Passportjs, NGINX, Ubuntu*

- Built a bilingual search engine and shared API for web and Android, integrating OpenAI, Google Translate, and Google TTS.

**********

**EDUCATION**

- Bachelor of Information Systems, Zagazig University, Egypt | August 2006
- Agile and Scrum Fundamentals Certification, IBM | September 2022
- React Development Cross-Skilling Nanodegree, Udacity | June 2022
- Advanced Full-Stack Web Development Nanodegree, Udacity | April 2022
- Professional Front-End Web Development Nanodegree, Udacity | January 2022
- Computer Science for Web Programming Certification, Harvard University, USA | May 2021
